JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 22 April 1964

1. (Unclassified - JGO) In a meeting with Mr. Samuel Archibald, Staff Administrator, House Foreign Operations and Government Information Subcommittee, I advised him informally that the Agency has no unclassified studies on the polygraph or its use, and that in consequence our response will be on that note. Mr. Archibald indicated that this would be fine as they would not be able to use any classified material in the context of the present hearings or study.

2. (Internal Use Only - JGO) Received a call from Representative Charles Mosher (R., Ohio), requesting that we make an appointment for an Agency representative to meet with a [REDACTED] [REDACTED] I advised the Congressman that I would set up a meeting and be back in touch with him tomorrow.

3. (Internal Use Only - JGO) Met with Mr. Fred Mesmer, Staff Director, Senate Immigration and Naturalization Subcommittee, who advised that [REDACTED] [REDACTED] will be introduced as soon as Senator Eastland's approval is obtained. No problem is anticipated in the introduction or handling of this bill in the Senate.

4. (Unclassified - GLC) Richard Lehman, OCI, called to say that they had received a call from DIA asking whether the Agency had any objection to Defense's including in some briefing material for Senator John G. Tower on subversion in Latin America, a copy of a statement (classified SECRET) provided by us to the Senate Preparedness Subcommittee in February 1963. Defense has decided to provide Tower with classified and unclassified material in lieu of a briefing which he had requested. I advised Lehman that since certain parts of the statement were now out of date, this would not be a good document for this purpose. Several other suggestions were made to Lehman with the proviso that DIA not attribute any material given to Tower to the Agency.

5. (Unclassified - GLC) [] OSI, called to say that the Atomic Energy Commission had called and requested a copy of the Director's prepared statement which he delivered to the Joint Committee on Atomic Energy on 18 March 1964. (This undoubtedly is prompted by Joint Committee contacts with the Commission regarding the proposed cut back in atomic energy programs.) [] was advised that since the substance of this document was undoubtedly known to AEC and since it had been provided to the Joint Committee, we had no objection from our standpoint to its being passed to AEC. We suggested, however, that OSI might want to clear this with the DD/I.

6. (Unclassified - GLC) Mr. Goss, in the office of Representative Wilbur Mills, called regarding correspondence the Congressman has received from [] a former Agency employee (retired for disability on determination by the Civil Service Commission). Goss said [] had sent Mr. Mills an extremely long letter complaining about his treatment by the Agency and including a check for \$800 which he refused to accept.

25X1

After checking with [] of Personnel, I advised Mr. Goss of the details of this case. [] [] has refused to accept the fact of his illness and any other action flowing therefrom including Civil Service determination of disability and all payments inherent in that determination.) Mr. Goss seemed well satisfied with this information but will probably send us a letter so that they will have a written basis for a response to []

8. (Internal Use Only - JGO) Mr. John Buckley, Administrative Assistant to Congressman Dante B. Fascell (D., Fla.), called to relay a message that [] had called and indicated that it had been some two weeks since he had talked to [] and wondered what was happening. I thanked Mr. Buckley for the message and told him I would check on it. No further report back to Mr. Buckley is necessary. Later in the day an appropriate call was made from [] which satisfied [] request. (See memorandum of record of 7 April 1964 for details.)
